

## About this company

Martin Friedrich Architects is a medium-sized design-based practice with projects in Australia and overseas. We are focused on highly detailed, inspiring and functional architecture for high-end residential and multi residential projects.

We can offer:

- A friendly work environment
- A rewarding salary based on skills and effort
- Further training including site visits and job running
- Opportunities for career progression
- A collaborative enjoyable design studio
- Expanding St Kilda based firm

We have various new clients as well as many repeat clients.
